ELECTION SERVICES DIVISION  
INTRA-DEPARTMENTAL MEMO DRAFT**

March 4, 2008

To: Deborah Seiler  
Registrar of Voters

From: Holly Davidson  
Election Processing Supervisor  
Election Services Division

Subject: Results of the 1% Manual Tally for the 2/5/2008 Presidential  
Primary Election

In compliance with Election Code Section 15360, the 1% Manual Tally for the Presidential Primary Election was completed on February 22, 2008. Seventeen precincts were selected at random by members of the public. Four additional precincts were selected by a member of the public to cover remaining contests. Tabulation system results include ballots cast by mail ballot and at the polls on optical scan paper ballots, excluding provisional, unreadable and/or damaged ballots.

Ballots and votes cast were manually tallied for the listed precincts and compared to the system-generated precinct reports.

<sup>1</sup> In original manual tally the team found 1 more ballot and 7 more votes cast than the system generated report. On 2/21/08 the ballots were re-run by Technical Services and the new report matched the manual tally of 365 ballots but the vote count was off by one. The precinct was reassigned to a new tally team and the new manual tally matched the system generated report of # (365) of ballots cast and # (2798) of votes cast.

<sup>2</sup> A spoiled mail ballot was found included in the mail ballot count for the precinct. Technical Services has been notified and will re-run the ballots without the spoiled ballot at a later date.

<sup>3</sup> In original manual tally the team found 7 fewer ballots and 57 fewer votes than the system generated report. On 2/21/08 the ballots were re-run by Technical Services and the new report matched the manual tally of 290 ballots cast but showed one more vote than we found in the manual tally. The precinct was reassigned to a new tally team and the new manual tally matched the system generated report of # (290) of ballots cast and # (2248) of votes cast.
